

Construction and Inspection Support County of El Paso

CLIENT

County of El Paso

ECM's team led the construction inspection on new subdivision construction, including the Hillside Park Subdivision, Mission Ridge Unit 1, Unit 2 and Unit 3 Subdivisions, and the Emerald Park Subdivision.

LOCATION

El Paso, TX

All subdivision work consisted of installing underground utilities including domestic water, sanitary sewer, and storm sewer pipeline systems. Concrete flatwork improvements included curb and gutter, sidewalks, driveways, and ADA ramps. Also, roadway improvements consisted of earthwork, subgrade preparation, base course installation, and asphalt paving. Miscellaneous improvements included landscape and irrigation, roadway illumination, traffic signal installation, striping, and signage.

ROLE

Construction Inspection

COST/SIZE

\$16 Million

ECM also assisted El Paso County with standardization of department inspection procedures and protocols. This included development of guidelines and various forms needed to provide accurate and pertinent record keeping.
