

Project Sheet

El Dorado High School Socorro Independent School

CLIENT

Socorro Independent School
District

LOCATION

El Paso, TX

ROLE

Project Management

COST/SIZE

\$20 Million
275,000 SF

The El Dorado High School received technology advancements with at least five computer stations located within each of the 86 classrooms. The 275,000 SF has instructional science rooms with adjoining laboratories, experimental preparation rooms, a large band room, a dedicated orchestra room, two identical art classrooms, and a dance room.

The high school also has a 21,000 SF gymnasium with three practice courts, the main court, and motorized retractable bleachers on three sides of the main court. Outdoor sports fields include a football field with a nine-lane running track, a long jump area, a baseball field, a softball field, and lighted tennis and basketball courts.

Unique features include the 635-sweeping radius walls, multiple ceiling elevations, elaborate and bright colors among the ceilings, floors, and accent walls.

With the \$2 Million in savings on the first phase of construction, the Owner released construction of the 35,000 SF locker, weight room, wrestling and varsity sports complex, and additional classrooms to complete this \$20 million school.
