University System

LOCATION

Huntsville, TX

ROLE

Project Management

COST/SIZE

\$15.1 Million
32,000 SF

The General's Market Dining Hall is a next-generation building created with an open and transparent design housing three indoor primary dining areas: Tailgate Alley, The Bearcat Kafe, and The Post Oak Kafe, creating a combined seating capacity of 600. The facility also features a covered outside seating area with fans and decorative lighting to keep outdoor diners comfortable year-round. The design scheme mimics other campus buildings such as the Old Main Market and the Student Health Center with a consistent aesthetic look and feel.

ECM's role on this project was to provide project management, consultation, and leadership in support of the University's Facilities Planning and Construction Staff in their day-to-day operations as well as act as a sounding board to Facilities Management and University Administration.
