

# Project Sheet

## Public Safety Operations and Training Facility City of Georgetown

### CLIENT

City of Georgetown

The City of Georgetown hired ECM as Project Manager for their new Public Safety Operations and Training Facility.

### LOCATION

Georgetown, TX

The administrative facility houses the Fire and Police Departments with technology enhancements, including a tactical training facility and a slow-speed driving track with an expansion area for a future shooting range. Within the main building, there is an emergency operations center, a 9-1-1 dispatch center, locker rooms, and physical/defensive tactics training area, a criminal investigation lab, and administrative and operational spaces.

### ROLE

Project Management

As Project Manager, ECM coordinated with Fire and Police Dept. Leadership to identify goals and desires for the facility. ECM handled numerous critical services for the City, including plan and contract compliance, schedule and budget oversight, change order monitoring and development, and coordination of overall team communication. ECM also managed the complex IT/AV and security elements required.

### COST/SIZE

\$ 29 Million

76,000 SF
