

Transformation Program Fort Bliss

CLIENT

Fort Bliss

The Transformation Program at Fort Bliss Army involved a significant expansion and transformation of Ft. Bliss from a 9,000 troop army base to a 40,000 troop facility. ECM played a key role in the Program Management (PM) team that made this difficult mission a success.

LOCATION

El Paso, TX

As part of the large nationwide PM team required to handle this campaign, ECM offered significant experience, local knowledge and manpower to the all-star squad. ECM successfully delivered the full breadth of building services, including planning, engineering, construction management, and program management for new buildings as well as expansions, renovations, and refurbishment of existing facilities.

ROLE

Project Management

Completed in 2011, this was one of the largest and most complicated military base programs ever undertaken by the US military.

COST/SIZE

\$4.8 Billion
