About the Company

ECM, a JMT Division, is a professional engineering firm, providing project and construction management services throughout Texas since 1983. We have successfully managed projects for federal, state, and local government agencies and private institutions valued at more than \$12 billion.

ECM's professionals include licensed engineers, registered architects, Project Management Professionals of the Project Management Institute (PMI), Certified Construction Managers of the Construction Management Association of America (CMAA), LEED-accredited professionals, field inspectors, project control specialists, schedulers, and cost estimators.

With our parent company, Johnson, Mirmiran, & Thompson (JMT), we can provide a wealth of in-house expertise, services, and leadership for a variety of sectors.

JMT, a licensed Texas firm, is ranked by ENR as #59 in their Top 500 Design Firms and is a multi-disciplined engineering and architectural firm that offers a full array of design and construction services to clients throughout the United States. JMT's client base consists of federal, state, and local government agencies, as well as private, commercial, and industrial institutions.

As an agent of the owner, JMT anticipates potential problems and develops solutions before a project is adversely affected, allowing the owner to maintain schedule, cost, and quality. JMT offers reliable and responsive staff to meet your needs with more than 2,000 employees and forty offices nationwide, with eight offices in Texas.

The ECM team offers decades of higher education experience developed through work on dozens of campuses across the region. We are passionate about higher education and serious about our role as owners advocate.

ECM has managed a wide range of **higher education projects.**

College of Osteopathic Medicine

The College of Osteopathic Medicine at Sam Houston State University in Conroe is the newest osteopathic college in Texas. Complete with advanced medical facilities and cutting-edge technology, the college will offer labs and learning space for clinical anatomy, molecular and cellular biology, and physiology and pharmacology.

Piney Woods Residential Hall

Piney Woods Hall is a 700-bed, 233,000 SF residence hall and learning center. The facility features single and double-occupancy rooms, community lounges, a faculty-in-residence apartment, laundry and recreation areas, multi-purpose rooms, community kitchens and study rooms. The ground floor contains an outdoor courtyard and community learning center both designed for students to connect, congregate and collaborate.

Health Science Center

ECM managed the third-floor addition and reconfiguration of the Texas Tech Health Sciences Center Clinic in El Paso, Texas. The project included ophthalmologist labs, a pediatric clinic, classrooms, and administrative offices. The existing building, which contained orthopaedic, internal medicine, OB/GYN, and UBCC clinics also received significant modifications.

Cardwell Collaborative Biomedical Building

This privately-owned biomedical research and technology building is located at the Medical Center of the Americas in central El Paso, Texas. The three-story, 60,000-sf facility was designed for collaboration of private start-up companies and university personnel. It features 20,000 sq. ft. of biomedical incubator space (including wet and dry laboratories, offices and meeting spaces).

Career and Technical Education Building and Garage

The Career and Technical Building is a seven-story building that includes 160,212 SF of parking, 375 parking spaces, and 65,000 SF of classroom and lab space. The campus exists within a unique context, adjacent to historic districts within a downtown urban setting. It is also the home to many unique educational offerings, with a focus on healthcare and allied fields.

Our success is the result of experienced staff, detailed local knowledge, and long-term relationships.

Featured Higher Education Program

Sam Houston State University

ECM led program management services for a campus-wide construction and renovation campaign for Sam Houston State University (SHSU), a member of the Texas State University System.

Over the course of this transformative program, ECM has completed 29 varied projects and continues to be a leading project management firm for SHSU. Project completed include an arts center, biology lab, residence hall, dining facility, student center, life science building, multi-use coliseum, infrastructure upgrades and improvements, student health and counseling center, engineering and technology center, athletic facilities, an off-site osteopathic medicine campus, and several other educational and support facilities.

ECM worked with the university staff through each of the project stages from initial planning and programming, budgeting, procurement, design, construction, and turnover. The vast knowledge accumulated on this program and the many other projects completed over our collective careers becomes a direct benefit to all future projects and clients.
